

PRESS RELEASE – FOR IMMEDIATE RELEASE

Date: 25 September 2024

SUCCESS FOR 7TH CHINA PLASTIC PIPE CONFERENCE

At the 7th International China Plastic Pipe Conference in Shijiazhuang, Hebei Province, Zoran Davidovski, Chair of the PPCA Organizing Committee, underscored China's growing dominance in the plastic pipe industry. He emphasized how technical innovation is reshaping international trade, steering it toward more sustainable, high-value pipe systems. Davidovski also highlighted the significant advancements in plastic pipe technologies since the last conference five years ago.

Chairman Wang Zhanjie of China Plastics Processing Industry Association (CPPIA) commended the event's 16-year history, noting its pivotal role in fostering international collaboration and driving the global growth of China's plastic pipe industry.

The conference, a spin-off from the PPXXI event, attracted over 340 delegates from across the globe, representing various sectors such as plastic pipe manufacturing, raw materials, construction, and research. Attendees benefited from 25 presentations covering topics like raw materials, manufacturing, design, installation, and sustainability, with 17 companies showcasing their innovations in the exhibition area.

The event was supported by industry associations such as PE100+, PPI, TEPPFA, and key Chinese companies.

AUSTRALASIA BECKONS NOW

Following the success of the China spin-off conference, momentum is now mounting in Australasia for OZPIPE 2024. Co-hosted by the Plastics Industry Pipe Association (PIPA) of Australia and the PPCA, this event is expected to attract a record attendance at the Sydney InterContinental.

Called ***Sustainable Infrastructure - The Future is Now***, this two day international conference takes place 12 - 13 November, 2024 and will provide a source of technological and business developments from Australasia and from

around the world. Cindy Bray, Executive General Manager of PIPA, insists that the conference will be a “networking experience like no other.” Registration via:

CALL FOR PPXXII ABSTRACTS

The power of plastic pipes will be all the more visible during the PPXXII Conference and Exhibition at the Hilton Warsaw, 15-17 September 2025. Delivering a paper at this event will inspire the technical and business landscape that embraces the innovative plastic pipe industry.

Interested individuals or organizations have until 8 November 2024 to submit online their proposed abstract in English in about 350 words (2800 characters). Key topics are: Sustainable Solutions for Plastic Pipes, Technological Innovations in Pipe Manufacturing, Environmental Impact and Recycling Initiatives, Market Trends and Future Projections, Regulatory Developments and Compliance, Case studies, etc.

For the complete list of topics, guidelines and submissions go to the Abstract Portal:

<https://ppxxii.com/abstract-portal-guideline-docs/>

Exhibitors and sponsors are equally welcome to endorse and be endorsed through the PPXXII networking program. Conference organizers have provided a special application portal for this purpose through:

<https://ppxxii.com/>

CAPTIONS
