

## LCA Comparative Report Request Form

Date:

**Specify the LCA report requested:**

### Your Contact Details

**Name, Family Name:**

**Company/Other:**

**Position held:**

**Country:**

**E-mail address:**

**Telephone number:**

**Specify the reason(s) of this request:**

**Signature:**

*By filling and signing this request, you acknowledge that you have read and agree to the conditions of use. TEPPFA reserves the right to treat exclusively fully filled and signed documentation*

***Please note that any information acquired as result of this request is divulged exclusively for your personal use and it cannot be further distributed without further formal authorization. If you do not accept these terms, please do not complete this request.***

***Please send the filled out and signed request to [info@teppfa.eu](mailto:info@teppfa.eu)***

### Disclaimer

- *Comparison studies are provided for information purposes only. The environmental impact analysis for alternative pipe materials has been calculated based on the same functional unit and category rules as used for the plastic pipe system to which it is compared. The analysis of the environmental impact of the comparison material has been based on publicly available data*
- *It should be noted that data relating to raw materials, manufacturing processes, system design, installation practice, etc. for alternative pipe materials has been taken from various publicly accessible sources. Whereas every effort has been made to ensure the integrity and validity of this data TEPPFA cannot accept any responsibility for any inaccuracies or omissions.*
- *As TEPPFA has made the results of the LCA comparison studies available for the general public, following the principles of EN 15804, ISO 14040 and ISO 14044, a critical review of the LCA study is required. Different to ISO requirements for comparative LCA studies TEPPFA did not install a review panel, but commissioned a single critical review. This critical review was performed by Denkstatt GmbH.*
